

Cynamics MSP/MSSP Partner Program

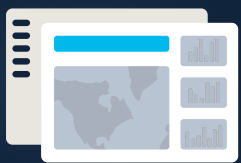

Revolutionizing Network Security

Discover the Future of Cybersecurity with Cynamics. The first AI-based, Cloud-based SaaS Network Detection and Response Solution, built for scale.

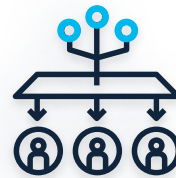

Cynamics Partnership Benefits

- Access to a robust MSSP dashboard.
- 24/7 protection by Cynamics VCA (Virtual Cyber Analyst).
- Elevate your business to new heights with innovative cybersecurity solutions.

Designed for MSP/MSSP

- Increase revenue and protect your bottom line.
- No additional equipment, training, or resources required.
- Predict, detect, and prevent cyberattacks from a single cloud-based platform.

Central Management

- Unparalleled visibility across multi-tenant environments.
- Manage all client networks from a centralized, cloud-native dashboard.
- Granular insights into complex architectures.

Low Touch Deployment

- Rapid onboarding with no on-site configuration.
- Configuration within hours, not days or weeks.
- Quick and easy customer deployment.
